

2018 RCS International Project Grants

CALL FOR APPLICATIONS

The RCS 2018 International Project Grants aim to assist with the development of capacity-building projects, that are needs driven, led by local requirements and lead to sustainable improvements in the delivery of surgical care in resource-poor countries.

Applications may be for new projects or existing programmes. Preference will be given to applications that may lead to longer-term collaboration with the RCS and relate to the RCS theme for 2018: *Improving the Delivery of Trauma-Care in Low and Lower Middle Income Countries (LMICs)*.

Further details and application forms can be found [here](#).

Winners will be announced at the annual [Global Surgical Frontiers conference](#) on Friday 15th June.

WHO CAN APPLY

Healthcare institutions based in countries identified as:

- Department for International Development (DfID) priority countries , or
- World Bank Low Income and Lower Middle Income Countries.

UK based individuals may assist in the structuring and supporting of a project however; all applications must be submitted by an institution based in the country where the project will take place.

VALUE

Successful applications will be awarded between GBP 2,500 - 5,000.

CLOSING DATE

Friday June 1st at 5pm.
